

## My Way to Heaven

Although I sometimes wanted  
the world to change the way I'd like,  
I've known deep, deep inside  
to want this is a fault.

People all around me  
should change their minds.  
For me also my husband  
should be of a better kind.

*I'm on the way to heaven  
I'm on the way to love  
I'm on the way to find me  
as I always was.*

My father should just love me  
and not worry any more.  
I wanted him to believe in me  
and also in God.

The woman I call best friend,  
should believe and think my way,  
my mother-in-law should care much more  
my daughters be the best of all.

*I'm on the way to heaven  
I'm on the way to love  
I'm on the way to find me  
as I always was.*

The friends of my daughters  
should like them the best.  
The teachers in their school  
should be better than the rest.

My brother should be happy  
with his whole life.  
I wanted him to trust himself  
and see all the love.

*I'm on the way to heaven  
I'm on the way to love  
I'm on the way to find me  
as I always was.*

I found out with THE WORK  
there is a better way.  
Byron Katie's questions  
helped me more than I can say.

Also my newest neighbour  
should change his point of view,  
but they all helped me realize,  
the one to change is you, it's me.

*I'm on the way to heaven  
I'm on the way to love  
I'm on the way to find me  
as I always was.*

I'm on my way to heaven  
I'm on my way to love.  
No one has to change.  
Nobody be transformed.

You are my way to heaven.  
You are my way to love.  
You are my way to find out  
we always want to love,  
we always want to love,  
we always want to love,  
**we always want to love.**
